Cat # ABT-070-01
Cat # ABT-070-10

Ceftazidime (Pharma Grade)
Ceftazidime (Pharma Grade)

Size: 1 g
Size: 10 g (or bulk)

General Information

Ceftazidime is a third-generation cephalosporin antibiotic. Like other third-generation cephalosporins, it has broad spectrum activity against Gram-positive and Gram-negative bacteria. Unlike most third-generation agents, it is active against *Pseudomonas aeruginosa*, however it has weaker activity against Gram-positive microorganisms and is not used for such infections. Ceftazidime pentahydrate is marketed under various trade names including Cefzim (Pharco B International), Fortum (GSK), and Fortaz. It is also sometimes referred to as the "Tasmanian Devil," due to its fairly powerful anti-pseudomonal activity.

Ceftazidime is usually reserved for the treatment of infections caused by *Pseudomonas aeruginosa*. It is also used in the empirical therapy of febrile neutropenia, in combination with other antibiotics. It is usually given IV or IM every 8–12 hours (2 - 3 times a day), with dosage varying by the indication, infection severity, and/or renal function of the recipient. Ceftazidime is first line treatment for the rare tropical infection, melioidosis.

In addition to the syn-configuration of the imino side chain, compared to other third-generation cephalosporins, the more complex moiety (containing two methyl and a carboxylic acid group) confers extra stability to β -lactamase enzymes produced by many Gram-negative bacteria. The extra stability to β -lactamases increases the activity of ceftazidime against otherwise resistant Gram-negative organisms including *Pseudomonas aeruginosa*. The charged pyridinium moiety increases water-solubility.

Molecular Formula:
(C₂₂H₂₂N₆O₇S₂)

A typical Certificate of Analyses

| Analysis Test | Specification | Results |
|--|---|----------|
| Mol wt 636.65 (C ₂₂ H ₃₂ N ₆ O ₁₂ S ₂) | | Complies |
| Description | White or slightly yellow powder | Complies |
| Identification1 | Peak retention time should be the same as the reference | Complies |
| Identification2 Acidity | 3.0 ~ 4.0 | 3.5 |
| Clarity and color of solution | Should comply | Complies |
| Pyridine content | ≤0.12% | 0.1% |
| Polymer content | ≤0.3% counts by ceftazidime | Complies |
| Loss on drying | 13.0% ~ 15.0% | 13.5% |
| Residue on ignition | ≤0.2% | 0.09% |
| Heavy metals | ≤20ppm | Complies |
| pyrogen | Should comply | Complies |
| Sterile | Should comply | Complies |
| Assay(on dried basis) | ≥95% | 98.0% |
| Conclusion | QC Passed | |

Usage: This item is for LABORATORY RESEARCH USE ONLY. The product may not be used as drugs, agricultural or pesticidal products, food additives or household chemicals.
