
Cat # ABT-720-001	Fexofenadine, Hydrochloride (Pharma Grade)	Size: 10 mg
Cat # ABT-720-005	Fexofenadine, Hydrochloride (Pharma Grade)	Size: 50 mg

General Information

Fexofenadine is an antihistamine drug used in the treatment of hayfever and similar allergy symptoms. It was developed as a successor of and alternative to terfenadine, an antihistamine with potentially serious contraindications. Fexofenadine, like other second and third-generation antihistamines, does not readily cross the blood-brain barrier, and so causes less drowsiness than first-generation histamine-receptor antagonists. It works by being an antagonist to the H1 receptor.

Molecular Formula:
 $C_{32}H_{39}NO_4$
Molecular Weight:
501.65 g/mol

ABT-720-001
