

## Extract Buffer Powder, GEB2

---

### Intended Use:

---

The powder form of GEB2 sample extract buffer provides a long shelf life and stable product. Prepare GEB2 solution by mixing the powder with distilled water. GEB2 sample buffer is recommended for the *Acidovorax avenae* subsp. *citrulli* and *Phytophthora* ELISA systems. This buffer provides optimal conditions for ELISA test performance while keeping background low in a wide range of plant matrices.

### Includes:

- General extract buffer 2, GEB2 powder
- Makes 1 to 7.3 liters
