

PBST 20X Buffer, Liquid Concentrate

Part Number: ACC 00501

Intended Use:

Offered in a convenient pouch, the liquid concentrate PBST buffer provides a long shelf life and stability. Prepare buffer solution by adding the concentrate to distilled water. PBST buffer is used to wash all Agdia ELISA tests, used as sample extraction buffer in some tests and is also used as the base for many other buffer formulations.

Includes:

- PBST buffer, 20X liquid concentrate, 50 mL
