

## **Rabbit anti-Sheep (Ovine) IgG (Heavy & Light Chain) Antibody (HRP)**

**Catalogue no:** LT023673NIABU

**Antigen:** IgG

**Epitope:** Heavy & Light Chain Reactivity: Sheep (Ovine)

**Host:** Rabbit

**Clonality:** Polyclonal

**Conjugate:** HRP

**Application:** Immunohistochemistry (IHC), ELISA, Western Blotting (WB)

**Product Details Isotype:** IgG

**Specificity:** Reacts with the heavy and light chains of sheep IgG as demonstrated by ELISA.

**Characteristics: Source:** Pooled antisera from rabbits hyperimmunized with sheep IgG. To insure lot-to-lot consistency, each batch of product is tested by ELISA and PCFIA to conform to characteristics of a standard reference reagent.

**Purification:** Affinity chromatography on canine IgG covalently linked to agarose.

**Application Details Working Dilution:** 1:4,000-1:8,000. Each laboratory should determine an optimum working titer for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded.

**Restrictions: For Research Use only**

**Handling Format:** Liquid

**Handling Advice:** Avoid repeated freezing and thawing. Dilute only prior to immediate use. Centrifuge product if not completely clear after standing at room temperature. Do NOT add Sodium Azide! Use of Sodium Azide will inhibit enzyme activity of horseradish peroxidase.
