

Name	Fertirelin Acetate
Cat #	PP-1270
Size	1 g, 10 g, 100, g and bulk custom packages
CAS#	106756-71-2
Mol. Mass	1213.34
Formula	C ₅₇ H ₈₀ N ₁₆ O ₁₄
Sequence	Pyr-His-Trp-Ser-Tyr-Gly-Leu-Arg-Pro-NHEt
Purity	
Appearance	
General Information	Fertirelin acetate is a synthetic nonapeptide analog of the naturally occurring gonadotropin-releasing hormone (GnRH), also known as luteinizing hormone-releasing hormone (LHRH). As natural GnRH, fertirelin acetate induces the release of luteinizing hormone (LH) and follicle-stimulating hormone (FSH) from the anterior pituitary gland which in turn results in an initial increase of testosterone and estradiol synthesis.
