

Product Data Sheet

Cat# **SP-55254-1** **Size:** 1 mg
Cat# **SP-55254-2** **Size:** 2 mg

Description: Growth hormone-releasing peptide 6 (GHRP-6)

Sequence: H-His-D-Trp-Ala-Trp-D-Phe-Lys-NH₂; MW: 873.04

Purity: >95%

Store: Desiccated at -20oC.

GHRP-6 (Growth Hormone Releasing Peptide – 6) stimulates a body's secretion of human growth hormone. Human Growth hormone has been shown in studies to promote lean body mass and reduce fat. GHRP 6 is also anti-inflammatory. Almost all GHRPs will stimulate hunger as they are Ghrelin mimetics, but GHRP-6 has demonstrated both anecdotally as well as clinically to stimulate the largest hunger increases in comparison to all other GHRPs. The consumption of carbohydrates and fats too soon before or after administration of GHRP-6 (or any GHRP) has been shown to blunt HGH release from the pituitary gland as well.
