

Product Information Sheet

F374
Ferric Ammonium Citrate

Synonym: Ammonium Iron(III) Citrate, Brown

CAS: 1185-57-5

Formula: $C_6H_8O_7Fe_x(NH_3)_x$

Molecular Wt: Varies

Properties

Form: Powder

Appearance: Dark Reddish-Brown to Black Powder

Application: Plant Micronutrient

Solubility: Water

Typical Working

Concentration:

Storage Temp: Room Temperature

Storage Temp of

Stock Solution:

Other Notes: Plant Tissue Culture Tested

Application Notes

References

Merck 13, 518

Revised 3/2007
