

**Product Information Sheet****G503  
Glycine**

Synonym: Aminoacetic Acid

CAS: 56-40-6

Formula: C<sub>2</sub>H<sub>5</sub>NO<sub>2</sub>

Molecular Wt: 75.08

**Properties**

Form: Powder

Appearance: White Powder

Application: Amino Acid

Solubility: Water

Typical Working

Concentration:

Storage Temp: Room Temperature

Storage Temp of

Stock Solution:

Other Notes: Plant Tissue Culture Tested  
Derived from a Non-animal Source**Application Notes****References**

Merck 13, 4504

Revised 3/2007
