

Product Information Sheet

H-Cl

H245

Hydrogen Chloride Solution 1.0 N

Synonym: Hydrochloric Acid 1.0 N; Muriatic Acid
CAS: 7647-01-0
Formula: HCl
Molecular Wt: 36.46

Properties

Form: Liquid
Appearance: Colorless, Clear Liquid
Application: Solvent; pH Adjustment
Solubility: Miscible with Water
Typical Working Concentration: Varies depending on the application
Storage Temp: Room Temperature
Other Notes: Plant Tissue Culture Tested
Contains approximately 3% concentrated Hydrochloric Acid per liter

Application Notes

References

1. Merck 13, 4801
