

Product Information Sheet**MgSO₄****M150**
Magnesium Sulfate Anhydrous

Synonym:

CAS: 7487-88-9

Formula: MgSO₄

Molecular Wt: 120.37

Properties

Form: Powder

Appearance: White Powder

Application: Plant Macronutrient

Solubility: Water

Typical Working

Concentration:

Storage Temp: Room Temperature

Storage Temp of

Stock Solution:

Other Notes: Plant Tissue Culture Tested

Application Notes**References***Merck 13, 5715*

Revised 3/2007
