

**Product Information Sheet****M5536**  
**DL-Malic Acid**

Synonym: DL-Hydroxybutanedioic acid  
CAS: 6915-15-7  
Formula: C<sub>4</sub>H<sub>6</sub>O<sub>5</sub>  
Molecular Wt: 134.09

**Properties**

Form: Powder  
Appearance: Off-White Powder  
Application: Tissue Culture  
Solubility: Water  
Typical Working Concentration: Application-specific; PhytoTechnology Labs supplements QC test media with 50 mg/L for biological testing  
Storage Temp: Room Temperature  
Storage Temp of Stock Solution: No data available  
Other Notes:

**Application Notes**

Used as a nutritional supplement for various cell culture applications.
