

Product Information Sheet**P846****Potassium Phosphate,
Monobasic Anhydrous**

Synonym: Monopotassium Phosphate; Potassium Dihydrogen Phosphate

CAS: 7778-77-0

Formula: KH_2PO_4

Molecular Wt: 136.09

Properties

Form: Powder

Appearance: White Crystalline

Application: Plant Macronutrient

Solubility: Water

Typical Working

Concentration:

Storage Temp: Room Temperature

Storage Temp of

Stock Solution:

Other Notes: Plant Tissue Culture Tested

Application Notes**References**

Merck 13, 7744

Revised 3/2007
