

Product Information Sheet

**S515**

Sodium Phosphate, Monobasic Monohydrate

Synonym: Sodium Dihydrogen Phosphate Monohydrate

CAS: 10049-21-5

Formula: NaH₂PO₄•H₂O

Molecular Wt: 137.99

Properties

Form: Powder

Appearance: White Crystalline

Application: Plant Macronutrient

Solubility: Water

Typical Working

Concentration:

Storage Temp: Room Temperature

Storage Temp of

Stock Solution:

Other Notes: Plant Tissue Culture Tested

Application Notes

References

Merck 13, 8734

Revised 3/2007
